\$25 otherwise

at the Fellowship Center - 620 14th St, VB
snacks will be provided

bring a pillow, blanket etc for group experiential

Life between Lives: the inter-journey of the soul

Stories and Lessons from my books - *"Inner Journeys, Cosmic Sojourns: Life transforming stories, adventures and messages from a spiritual hypnotherapist's casebook"* volumes 1 & 2

Where do we go when we die? Do we choose our parents, our family and friends, before we are born? Are we working out karma in this life? Do we have a special purpose or mission? Weaving religious traditions, the psychic readings of Edgar Cayce, the phenomenon of NDEs (near death experiences) plus Michael Newton's provocative research (which resulted in his best-selling *Journey of Souls* and *Destiny of Souls*), author and hypnotherapist Stephen Poplin will describe the vast arenas of spiritual exploration when we are not incarnated in our bodies. In this informative program, we will deal with humanity's great questions of soul and spirit, life and death and life again. Along the way, we will discuss soul groups, life lessons, love contracts, guidance from above, reincarnation, interplanetary sojourns, and choosing earth bodies. Oh yes, and a few ghost stories. Edgar Cayce had some intriguing things to say about where we go when not on the earth!

This will be quite a ride, and You signed up for it!

Then an experiential! ...

Group Galactic Recall ... an afternoon experience - 3 – 4:30 pm

Stephen will present a talk on life between lives and outline the various ways one can recall these soul memories, emphasizing personal recollection via hypnosis. This discussion will be followed by a fascinating experiential in which we uncover images and themes from your soul's meta-memories when not in the body. Contact one's soul guides, celestial family and higher beings. Body and life choices were decided in Spirit. What is your mission? Venture into this expansive spiritual journey of your own soul development.

1 1/2 to 2 hour program. Bring a pillow and a blanket and your adventurous self!
